

Sprint3 Plan

Product name : Chedu

Team name : Chedu team

Sprint completion date : July 17, 2017

Revision number : 2.0, revision on July 18, 2017

1. High level goals(for this Sprint)

To implement PPT slideshow visualization to users.

Also, develop remaining parts from last sprint(Chat UI, linking the web pages, etc.).

2. Task Listing

Sprint 3 : PPT slideshow implement / Details

- (13) As a distributor, I want to share the PPT slides that uploaded on chedu.html page

(Update things on last sprint)

Task 1. Upload the file on Onedrive Using Onedrive API

Task 2. Get a embedded link of target file via HTTP request.

Taks 3. Save it on DB and implement it into Chedu page.

- (8) As a user(learner/distributor), I want to see the next page after I click the buttons that provides from services.

Task 4. Construct DB that manages Chedu service.

Task 5. Make sure that implementation of HTMLs and variable transmission via Javascript complete on every page

- (5) As a user, I want to see well-aligned webpage for convenience.

Task 6. Update .css files for alignment.
